Additional Information

New event formats and associated descriptions are below.

FISHBOWL

A fishbowl is structured with an inner circle (the fishbowl) and an outer circle. The participants in the fishbowl actively participate in the ongoing discussion while the participants in the outer circle listen to the ideas and observe.

Helpful for large groups and allows all attendees to participate in conversation.

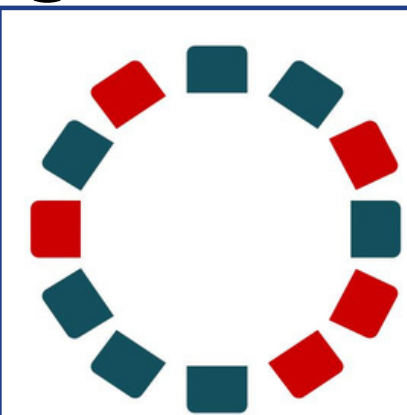

WORKSHOP

A workshop is a place for discussion and problem-solving.

Our Focused Regional Care Workshops will be hands-on, game-based events led by practice coaches (each region will be led by the respective practice coach).

ROUNDTABLE

A roundtable is an organized conversation focused on the exploration of one specific topic. Usually, at a roundtable, participants are placed on equal footing in their contribution to the conversation.

A roundtable has an informal moderator to "chair" the event.

PANEL DISCUSSION

A panel discussion is centered around a specific topic featuring a selected group of experts who share their experiences and perspectives.

Typically facilitated by a moderator who guides the panel and audience through the event for an engaging discussion.
